

Bryan Ashenbaum

Bryan Ashenbaum is currently an Assistant Professor of Supply Chain Management at Miami University. He holds a bachelor of science in Microbiology, an MBA and Ph.D. in Business Administration, all from Arizona State University. Prior to starting his academic career, Dr. Ashenbaum has held various positions with Procter & Gamble, Honeywell, NIBCO, and the US Navy.

Broadly speaking, his primary research interest is the changing nature of organizational interfaces and the permeability of organizational boundaries within supply chains. His specific research interests include the integration of internal and external supply chains, the impact of technology adoption on supply chain relationships, outsourcing, and the intersection of the organizational behavior and supply chain research areas. His research has been published in *Transportation Journal*, the *Journal of Business Logistics* and in the *Decision Sciences Journal of Innovative Education*. He has also written a number of white papers and brief articles for CAPS Research and *Inside Supply Management*.
